**Course Description**

“Brushstrokes Across Time” is more than a course—it is an immersive experience into the continuum of Chinese art. Students will embark on a captivating five-day journey with a comprehensive course designed to explore the intricate weave of Chinese art, history, and culture as illuminated by the University Museum and Art Gallery (UMAG)’s exquisite collections. Under the expert guidance of the course instructor, students will traverse the ancient traditions and diverse mediums of Chinese art, delving into the profound impact of pivotal traditional Chinese philosophy, such as Confucianism, values, and key art theories in pre-modern China. Throughout the course, students will be granted exclusive access to participate in behind-the-scenes sessions for viewing museum objects from the collection. The course will then seamlessly transition into the vibrant territories of modern and contemporary art practices. From the earliest calligraphic strokes to the bold expressions of today’s avant-garde, this course promises a deep understanding of the enduring legacy and evolving dynamism of Chinese art forms and artistic expression.

Students will have the exceptional chance to join two guided tours of UMAG’s special exhibitions which delve into the spheres of contemporary abstract art and the precision of scientific botanical illustrations respectively. Complementing the voyage and exploration, demonstration in traditional Chinese art mounting and a lecture will furnish students with a dual understanding of theoretical and practical approaches to art conservation, which is designed as a taste of art conservation and aims to inspire a deeper appreciation for the meticulous care required to maintain cultural heritage.
Learning Outcomes

1. Attain an insightful overview of Chinese art, embracing its evolution from classical forms to contemporary expressions.
2. Enhance analytical skills in art criticism, with a focus on understanding the cultural and historical contexts of Chinese artworks.
